

Estd.1955

**ONE DAY NATIONAL SEMINAR
ON
EXPERIENTIAL LEARNING: A PARADIGM
SHIFT IN EDUCATION**

**18th March, 2026
(Hybrid Mode)**

Organized by

**Internal Quality Assurance Cell
NABAKRUSHNA CHOUDHURY COLLEGE OF TEACHER
EDUCATION, ANGUL**

(Recognized by NCTE & Affiliated to Utkal University, Bhubaneswar)

About Us

The college was established by the Government of Odisha in 1955 and was named as Basic Training College. It was named Basic Training College because the students were trained in true spirit of basic education propounded by Mahatma Gandhi. This college is the second teacher training institution in Odisha and first teacher training institution in Odisha in post-independence period. In conformity with the recommendations of the National Policy on Education, 1986, the college has been upgraded to the status of College of Teacher Education in 1988. The college has been named after a great freedom fighter, an outstanding social worker and former Chief minister of Odisha, Late Nabakrushna Choudhury on 21.07.1997. Since then, this college is known as Nabakrushna Choudhury College of Teacher Education, Angul. The college is affiliated to Utkal University. Now the college is running with B.Ed. intake capacity of 150 and M.Ed. with 50 seats capacity subjected to approval of NCTE.

About the Seminar

The National Education Policy (NEP) 2020, approved by the Government of India, aims to transform the education system in India. The policy emphasizes the importance of teacher education in achieving excellence in education. The National Education Policy (NEP) 2020 proposes the revision and revamping of all aspects of the education structure, including its regulation and governance, to create a new system that is aligned with the aspirational goals of 21st century education, including SDG 4 with focus on India's traditions and value systems. Education is undergoing a transformative shift—from passive knowledge transmission to active, meaningful engagement. The National Seminar "***Experiential Learning: A Paradigm Shift in Education***" is designed to explore this dynamic transition and its profound impact on modern teaching and learning practices.

Inspired by the pioneering ideas of John Dewey and shaped by the experiential learning model of David A. Kolb, experiential learning places experience at the heart of the educational process. It emphasizes "learning by doing," reflective practice, and real-world application as powerful tools for deeper understanding.

This seminar will provide educators, academic leaders, researchers, and students with:

- Insights into the philosophy and principles of experiential learning
- Practical strategies for integrating hands-on activities into curricula
- Innovative classroom models that promote critical thinking and problem-solving
- Methods for assessing experiential learning outcomes effectively
- Opportunities to engage in interactive discussions and collaborative activities
- Participants will discover how experiential learning enhances student motivation, improves retention, and nurtures essential 21st century skills such as creativity, communication, collaboration, and adaptability.

Join us to reimagine education, redefine classroom experiences, and embrace a learner-centered approach that prepares students not just for exams, but for life.

The Key Objectives of the National Seminar

- To Facilitate a platform for diverse stakeholders to share information, ideas, and experiences, promoting a nuanced understanding of teacher education & future perspective.
- To create a forum for teacher educators, researchers and teachers of the country for deliberation on implications of NEP 2020 on teacher education with reference to trends, practices and innovations.
- To reflect on opportunities and challenges for effective implementation of recommendations of NEP 2020 on teacher education.
- To explore themes such as, Professional Development, Integrated teacher Education Programme (ITEP), Artificial Intelligence (AI), digital pedagogy, educational policies, holistic assessment, sustainable development with the context of NEP 2020.

Themes & Sub Themes

- Experiential learning in Teacher Education Programme
- Integrating IKS and local cultural contexts
- Toy-based and storytelling pedagogy.
- Art-Integrated learning and Sports-integrated learning.
- Project-based and inquiry-based learning.
- Sustainability and "Green" pedagogy: The school campus as a living lab
- Holistic Assessment/360-degree assessment
- Integration of ICT in experiential learning
- The "Phygital" (Physical and Digital) classroom: Balancing AR/VR with physical hands-on learning.
- Experiential learning in school education– Prospects and challenges
- Experiential learning as an innovative pedagogy
- Integrating experiential learning in inclusive education
- Role of experiential learning for Vikshit Bharat-2047
- Competency-based Curriculum and Innovative Pedagogical Practices

Note: The themes and sub-themes are suggestive in nature. However, the papers which are relevant to teacher education in the context of NEP 2020 shall be considered.
